PROFESSIONAL SUMMARY

Software Engineer with 6+ years of experience building production full-stack applications and AI systems using TypeScript, JavaScript, React, Next.js, Node.js, and Python. Hands-on with AI agents, retrieval-augmented generation (RAG), microservices, REST APIs, and AWS/Google Cloud.

PROFESSIONAL EXPERIENCE

Software Engineer | Ford Motor Company | Bengaluru, India **Nov 2025 - Present**

- Built and shipped **localized Owner Dashboard web experiences** for Ford vehicle owners (region-specific account, vehicle, and service features across multiple markets) using React, Next.js, and TypeScript over backend REST APIs, partnering with product, design, and regional teams.

Software Engineer | People Interactive (Shaadi.com) | Mumbai, India **Jun 2022 - Oct 2025**

- Built **Astrochat** end to end (architecture to deployment), a real-time chat service with LLM-powered AI agents and NLP-driven responses, serving users at scale.
- Migrated the frontend build pipeline from Webpack to Vite for **70% faster builds** and raised TypeScript type coverage to **90%**, improving code quality and developer velocity.
- Optimized **45,000+ URLs for SEO**, growing organic traffic and registrations; improved performance via lazy loading, caching, and asset optimization, and shipped **reusable components** that accelerated team velocity.

Software Engineer | GeekyAnts India Pvt Ltd | Bengaluru, India **Sep 2020 - May 2022**

- Migrated a **monolithic backend to microservices**, improving the scalability, reliability, and maintainability of production services.
- Reduced page load times by up to **35%** through code-splitting, lazy loading, and caching; worked directly with clients to gather requirements through integration and delivery.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL

AI / LLM: AI Agents, Multi-Agent Systems, RAG, LLM APIs (Anthropic Claude), LangGraph, MCP (Model Context Protocol), Embeddings, Vector Search (pgvector), Hybrid Search (BM25), Knowledge Graphs, NLP

Frontend: React, Next.js, AngularJS, Micro-Frontends, Component Libraries, Vite, Webpack, SEO, Web Performance

Backend: Node.js, Express.js, NestJS, REST APIs, Microservices, Socket.io, BullMQ

Data & Cloud: PostgreSQL, MySQL, MongoDB, Redis, Supabase, AWS, Google Cloud Platform (GCP), Git, GitHub

EDUCATION

B.Tech, Computer Science and Engineering | Shri Shankaracharya Group of Institutions (CSVTU) | **2020**
CPI: 7.44

Class XII (CBSE) | Krishna Public School | 78% **2016**
